

The GPSC incentives are changing in response to physician feedback collected during the visioning consultations, and to support the strategic objectives of the patient medical home model. These changes will be in effect as of October 1, 2017.

The following table summarizes the changes to the current GPSC incentives to better support physicians in practices:

Current	Change
GP with Specialty Training Urgent Telephone Advice Fee G14021	
Payable to a GP with specialty training for urgent communication regarding assessment and management of a patient. Only eligible for requests initiated by a specialist or a GP.	Effective July 1, 2017: Expand the eligibility for fee G14021 to include requests for urgent telephone advice initiated by an allied care provider.
Chronic Disease Management G14050, G14051, G14052, G14053	
One of the two required visits must be in-person with the FP and one may be a group medical visit or by telephone with the FP or nurse (G14079 and G14076 may be delegated).	Effective October 1, 2017: Allow a telephone or in-person visit with a College Certified AHP to qualify as one of the two required visits.
Planning Visits for Complex Care G14033 and G14075, Mental Health G14043, and Palliative Care G14063	
Varied requirements for whether a same day visit service must or may be billed on the same day as the planning incentives.	Effective October 1, 2017: Allow the option for a same day visit service to be billed on the same day as the planning visit fee for any reason.
Varied requirements for whether the 30-minute total planning time must take place all on one day.	Effective October 1, 2017: Allow for the required 30-minute planning time to not all have to take place on one day.
Varied requirements for whether all or majority of the 30-minute planning time must be face-to-face.	Effective October 1, 2017: Require the majority of the 30 minutes to be face-to-face.
Mental Health Management G14044, G14045, G14046, G14047, G14048	
Fees do not allow delivery by videoconferencing	Effective October 1, 2017: Allow delivery by videoconferencing to align with the current MSP counselling visits.

Telephone/Email Follow Up Management G14079	
Restricted to patients for whom a GPSC planning fee has been billed. Can be delegated to AHPs, including MOAs.	<p>Effective October 1, 2017: Replace with a new GP-patient email/text/telephone advice relay fee (G140XX), applicable to all patients and delegable to AHPs, including MOAs.</p> <p>Set the new G140XX to \$7 to better align with comparable Fee for Service INR fee G00043 (value of \$6.83).</p>
GP-Patient Telephone Management G14076	
Current value is \$15.	Effective October 1, 2017: Increase the value to \$20 to better reflect relativity to a base office visit.
GP with Specialty Training Telephone Patient Management G14023	
Currently pays \$20/15 minutes or portion thereof.	Effective October 1, 2017: Align G14023 with the GP-Patient telephone fee G14076 by making both worth \$20 and deleting the per 15 minute component.
Frailty Complex Care G14075, Telephone Management G14076, Patient Conference G14077	
Labeled "attachment" fee codes to support A GP for Me.	Effective October 1, 2017: Delete "attachment" from the fee code names as A GP for Me has completed.
Unattached Complex/High Needs Patient Attachment Fee G14074	
Compensates for the time, intensity and complexity of integrating a new patient with high needs into a family physician's practice.	Effective October 1, 2017: Fee no longer available. For other GPSC incentive fees that support the care of complex patients, please see the FAQs .
