

Residential Care Initiative

Supporting Information re: residential care bed counts

Overview

The residential care initiative supports divisions, or self-organizing groups of family physicians where no divisions exist, to design and implement local solutions that deliver dedicated GP MRP services for patients in residential care facilities.

To support divisions/self-organizing groups with their planning processes, below is a summary of divisions, communities, facilities, and bed counts (March 2015). A detailed list of the specific facilities and beds included in these summary counts are available for each division/community by emailing residentialcare@doctorsofbc.ca. These totals will be updated at the time of preparing the MOU for each division/self-organizing group.

Division, community, facility, and bed summaries by health authority

DoFP	Count of Facilities	Sum of short term beds in RC facilities	Sum of Publicly funded LTC beds	Sum of Privately funded RC beds	Sum of RC Beds - public and private
